About Me

I have completed a Bachelor of Information Science with a specialization in ICT at Garissa University. Skilled as a front-end developer, I specialize in HTML, CSS, and JavaScript, creating visually appealing and user-friendly web interfaces. My role as a data analyst involves utilizing tools such as Excel, Power BI, SQL, and Python to analyze and interpret data effectively. Additionally, I possess strong skills in graphic design, working primarily with Adobe Photoshop and Figma to create engaging visual content.

Skills

- **Front-end Development:** HTML, CSS, JavaScript, Responsive Design
- **Data Analysis:** Excel, Power BI, SQL, Python
- **Graphic Design:** Adobe Photoshop, Adobe Illustrator, Figma
- **Tools:** Git, VS Code, Tableau, Jupyter Notebook
- **Soft Skills:** Analytical Thinking, Problem-Solving, Attention to Detail, Team Collaboration
- **Microsoft Office:** MS-word, excel, PowerPoint, publisher, access
- **Data Entry**

Professional Experience

Front-end Developer

online freelance

- Developed and maintained user interfaces for websites and web applications using HTML, CSS, and JavaScript.
- Collaborated with back-end developers to integrate APIs and ensure seamless user experiences.

- Implemented responsive design principles to optimize websites for mobile and tablet devices.
- Conducted code reviews and provided mentorship to junior developers.

Data Analyst

Online freelance

- Analyzed complex datasets using Excel, Power BI, and SQL to generate actionable insights.
- Developed and maintained dashboards in Power BI to track key performance indicators (KPIs).
- Conducted statistical analysis and data visualization using Python (Pandas, Matplotlib, Seaborn).
- Presented findings to stakeholders through detailed reports and visual presentations.

Graphic Designer

Online freelance

- Created visually appealing graphics, logos, and marketing materials using Adobe Photoshop and Illustrator.
- Worked closely with clients to understand their vision and deliver customized design solutions.
- Managed multiple design projects simultaneously, ensuring timely delivery and client satisfaction.
- Utilized Figma for designing user interfaces and creating interactive prototypes.

Microsoft office

Online freelance

- Proficient in Microsoft Office Suite, including Word, Excel, and PowerPoint, to create and manage documents, spreadsheets, and presentations.
- Delivered timely and accurate typing services for various documents, reports, and communications.
- Assisted in the creation and formatting of professional documents, adhering to organizational standards and guidelines.

Data Entry Specialist

- Conducted accurate and efficient data entry tasks, maintaining high levels of precision and attention to detail.
- Managed and organized large volumes of data, ensuring data integrity and confidentiality.
- Utilized Excel for data analysis, reporting, and visualization to support decision-making processes.

Education

Bachelor of Information Science

[Garissa University] - [Nairobi, Kenya]

- Relevant Coursework: Web Development, Database Management, Data Visualization, Graphic Design

Projects

Portfolio Website

- Developed a personal portfolio website showcasing projects in front-end development, data analysis, and graphic design.
- Implemented responsive design and optimized the site for performance and accessibility.

Sales Data Analysis

- Conducted a comprehensive analysis of sales data using SQL and Python.

- Visualized sales trends and patterns with Power BI to aid strategic decision-making.

Brand Identity Design

- Designed a complete brand identity for a startup, including logo, business cards, and social media graphics.
